What is Art?

[-Δ□○(⊗)∞ℓ?·]

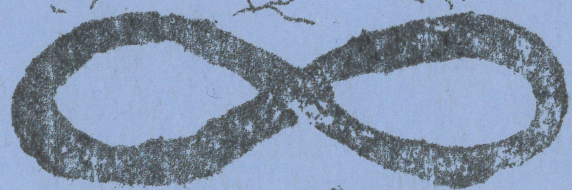

Perhaps a state of parasite Atom-Bomb
Maggot sluts were wiser to ask how to pay First
respects to those Cosmic-Elders, who, in all
past human history, have accomplished the
most for the sake of all, and how to respect
them personally for the sake of health, well-
being, freedom of self-expression and love;
(physically, mentally, spiritually,
materially, environmentally, sociologically,
cosmologically and individually):

And with secondary respects to those
Cosmic-Elders with the most amount of
respect to the First:

And on the part of all younger human
entities, First respects, and of necessity,
to those with the most amount of respect
to Cosmic-Elder consciousness in general,
and in the above order;

And for the sake of all, and for
all human future.

RADIO FREE FAGGOTRY IS ON THE AIR

In the latest example of the corporate brainwash, STAR broadcast headed by one William "Fudge" Buckley, asshole of the far right, has taken over WNCN, New York City's only 24 hour classical music station and switched to an all rock music format. WQIV as it is now called joins WCBS, WPLJ, WNBC, WBLS, AND WNEW, and at least 20 other stations in the big apple in broadcasting the same watered down pabulum of so-called rock music.

Few will object to a little Gladis Knight with our Pips and the O'Jays sure set our toes a'tapping. But the reputed suicides of Otis, Jimmy, and Janice and the corporate takeover of the rock music business have completely destroyed its potential to bring people together and to be a medium for the peoples' voices against oppressive and restrictive elements in our society. Rock music is now designed to program apathy, cause sterility of all imaginative creativity, and to sell Coca-Cola and Big Mac's.

Before the switch at WNCN, Buckley got on the air and solicited pledges from the classical buffs to save the station. No one knows how much money he absconded with, but he claims to be looking around for another FM station to replace the old WNCN format. So far, the only station mentioned as a possibility is WRVR, the only New York station with an all jazz program.

With more than 50 radio stations in New York, using the peoples' air waves, we should be able to hear what we want: opera fans would have Callas or whoever, jazz heads their Bird and Miles, nostalgia freaks Ricky Nelson. But we all know who programs what we hear and why. Until that glorious day comes when the people take back what is rightfully theirs, we will dance to a different drummer. Gaycott the radio stations, disconnect the musak boxes in their elevators and tea rooms, etc., and make our own music.

A FINE SHOW

Albert M. Fine has a showing of karma cosmological art he's done at The Artist's Space, 155 Wooster St., on Tuesday thru Saturday from 10:30 to 5 pm. The selections are from the Richard Tuttle collection, and it's all FREE...so stop in. Runs through November 16.

GAY CIVIL RIGHTS COMMITTEE TAKES DEEP PLUNGE AND CONFRONTS POLITICIANS

After five weeks of continuously deciding New York City was going to actually have a Gay Civil Rights Rally, the Committee was finally greeted by Morty Manford, the most recent ex-president of the Gay Activist Alliance, who in one fell swoop almost convinced the Committee to postpone the rally until after the new year. During the meeting new information was presented that dealt a heavy blow to the Committee efforts. It seems several of Intro 554 key sponsors, Carter Burden and Ted Weiss, were trying to persuade the Committee not to pressure the City Council into voting on the Bill before December 31. The Committee was described as being "politically naïve" and was charged with not having laid the proper "groundwork" to guarantee enough votes in the City Council to pass the Intro 554.

Many people feel time has run out for Intro 554. It is true that very little has been done to attract the media coverage so many feel is necessary to pass the bill. However little is known about how much media coverage influences city councilmembers. For those who can remember and likewise for those who need to know, many councilmembers have made promises of support for previous Gay Rights Bills, but have rewarded the gay community with hypocrisy and deceit and have sent every other Bill down to a humiliating defeat. Since when are our demonstrations and rallies called off because homophobic politicians decide postponement would be better for us? With strong support from others, Jerry Martin of the GAA, quashed the attempts to delay the rally. He refuted the rumors of eroding support within the City Council and cited a recent letter from Carter Burden where he again reaffirms his intent to push for passage of Intro 554 this year.

Though it was unanimously supported not to discriminate against any potential speakers for their political ideology, the same could not be said for the entertainers. Faced with an emotional outburst by the chairperson, the Committee sank into a morbid and revealing discussion about the merits of transvestite entertainers. Most of the women absolutely refused to allow any "female impersonators" be a part of the entertainment. The women were unable to reconcile themselves with the blatant sexism of many cheap female impersonators and voiced concern over the straight media's repeated attempts to sensationalize the Gay Liberation Movement with stereotypes. The issue was skillfully and temporally defused by Morty Manford who made a motion that was accepted to allow one man and one woman to exercise "good judgement" in selecting the entertainment. This awesome burden falls on the shoulders of "Mama Jean" and Mark Bently. They both promised a sensitive and respectful approach to their selections. Contrary to most gay political groups these days, the Committee for Gay Civil Rights has displayed and encouraged a profound solidarity within the Movement. Anyone interested in assisting the Committee with time, money, and energy, is urged to attend their Wednesday night meetings at the Mattachine offices, 59 Christopher St., at 8:00 p.m.

W MEDIA BLITZ

Yea, its a medis blitz alright folks! Just tune in your favorite TV station and see all the queers rape and rip-off society. In the past several months , ABC has aired a show about homosexual rape and NBC has reedited and approved a program for its Policewoman series where three lesbians rip-off an old-age retirement home. And just last night on the Tomorrow show, hosted by Tom Synder, an entire program was devoted to the problem of male hustlers.

The newspapers haven't left us out either. The New York Post reported the arrest of Harvey Berish, a Bronx schoolteacher, on charges of sodomy, sexual abuse, and endangering the welfare of a minor. And just this Thursday, Barbara Trecker, of the New York Post, gave gay people her undivided attention and dug up and revived the sensational gay bank robbery of August 1972. Trecker treated us to a gastly account to the heist, and how it was being made into a movie starring Al Pacino. By the way, is Al a faggot? Trecker ended the story by detailing the gay desperadow desperate poverty and their repeated attempts to commit suicide with razor blades, sleeping pills, and gas. Last year the newspaper covered Intro II by catering to the Catholic church and the firemen. This year they are doing a number on us all by themselves.

Ode to A Pill

Glory, glory, peachy keen,
Rraises be to Thorazine!
Even though you don't enjoy it,
Modern doctors all employ it
To alleviate neurosis
And to modify psychosis.
It's the very best invention
For relieving nervous tension,
Thought there are some minor
side-effects.
It isn't nice to mention.
Do you have ringing in your ears?
Those aren't wedding bells:
It's Thorazine reacting
On your cerebellar cells.
So, altogether, Docotr, please,
The cure is worse than the disease.

POPULATION CONTROL?

Sterilization experiments

Where:

Where: Hospital General are being conducted on poor women in Hospital
San Juan de Guatemala, which when conducted on rabbits Herrera
Rios, and monkeys at the Animal Care Center at the Llerandi
Guatemala University of Colorado Medical Center caused the
City death of at least one monkey due to what was re-
ported as "chronic tuberculosis."

The "Defoe Experiment" will be one of several reports made to the Bertrand Russel Tribunal in Rome sometime this Nov.; the report will focus on the strategy and impact of population control in Latin America.

The report on this questionable experimentation and its techniques have resulted in cruel indications, scars, risk of death or possible contamination and irreversible injury to other organs of the body if overspillage occurs.

This sort of experimenting has enraged people so much that they are seeking wide publicity in order to halt them, the butchers. Realistically speaking, the white power advocates behind the experiments - The Defoe Plan for Extermination, oops, population control, is a form of systematic and orderly genocide of the Third World no matter how one looks at it.

Is sterilization the answer? Not when victims like women, rabbits and monkeys are injured by it...no...not at all.

WOULD YOU BE STERILIZED FOR A SARI & A BAG OF RICE?
(78,423 poor men & women in Ernakulam, India in July '71)
did in return for 45 rupees, a plastic bucket
containing a sara, a dhoti & a bag of
rice.

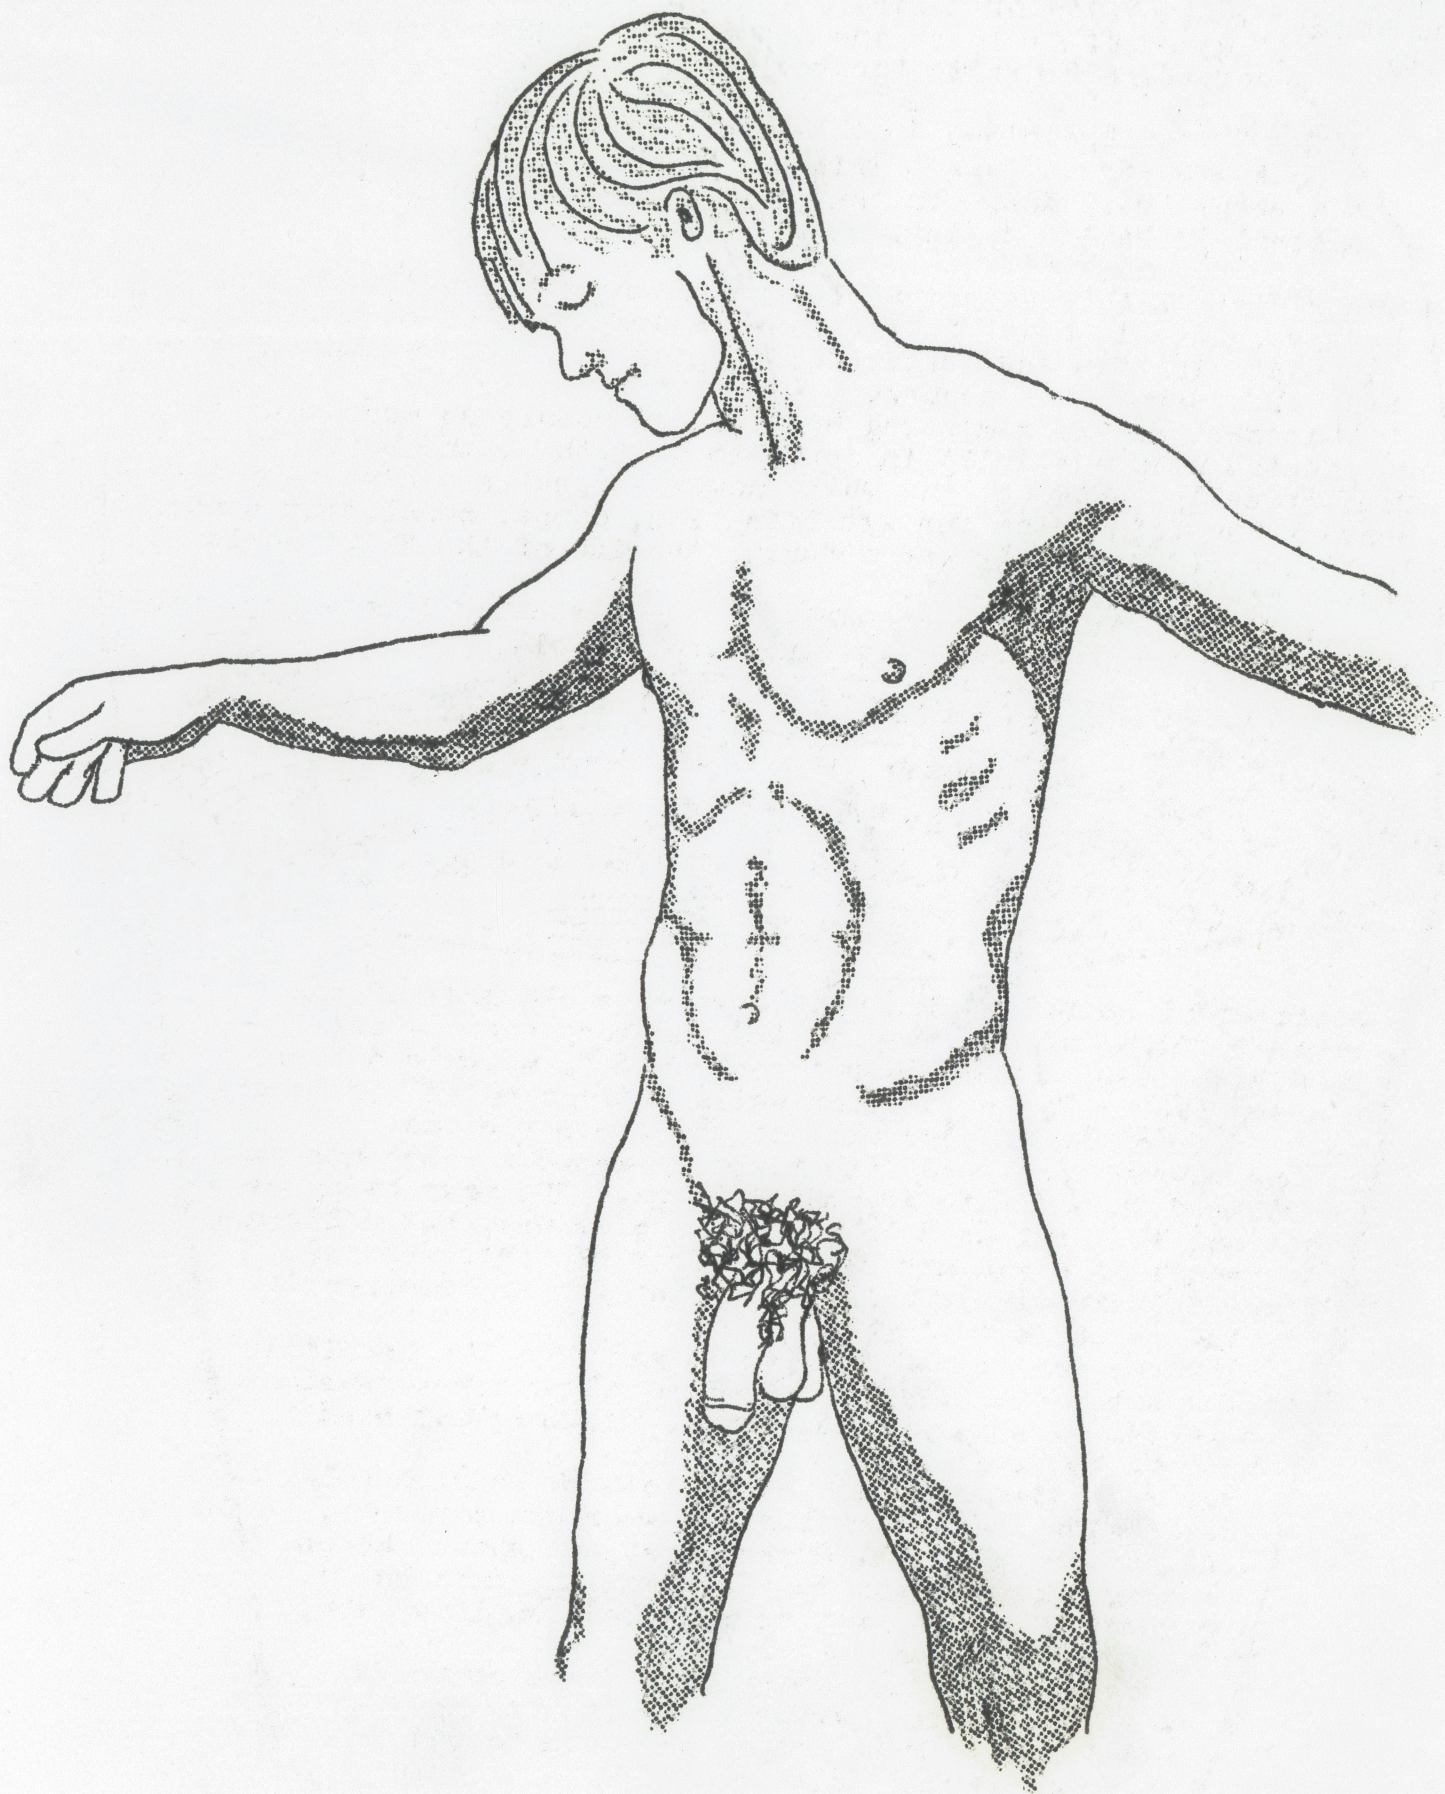

The so-called sterilization process causes blockage of the woman's fallopian tubes by an inflammatory agent - using a chemical poison called "paraformaldehyde", which requires wearing gloves for protection while being handled and is injected into the uterine wall of the women victims.

One woman has already (that was reported so far) has experienced "a moderate bronchial spasm." The drug being used has not been released as yet for public use, but a license to use it on women was obtained from the FDA (federal drug administration), as an exception for experimentation on the women in Guatemala.

Payment for transportation to and from the hospitals to the women are offered as a form of meager persuasion to become program participants, whether they need a hysterectomy, or not.

The sterilizations are being accomplished in collusion with the Guatemalan and American concerns, and have been labelled as racist and should be an outrage and concern to all those who must oppose genocide, racism, sexism and classism if we are to live in a human world.

Women are being manipulated (read coerced) with traumatic ends as a result, for the experiments have not ever proven to be conclusively successful.
