Artists Space, established in 1973, is a not-for-profit culturally broad based center for contemporary arts and arts service organization. We are committed to the presentation of work, in all disciplines, by unaffiliated artists; to ignoring the arbitrary and capricious boundaries between disciplines; to exploring non-hierarchical methods of developing programs and to providing artists with a forum through which they may refine and define our culture.

Artists Space programs are made possible, in part, with public funds from the New York State Council on the Arts, the National Endowment for the Arts (a federal agency), the New York City Department of Cultural Affairs and Materials for the Arts (a program of the NYC Department of Sanitation). Additional assistance for Artists Space programs and activities is generously provided by artists, individual members, friends, Foundations and Corporations.
